PROFESSIONAL SUMMARY

Aspiring Data Analyst with a strong foundation in data analysis, visualization, and business intelligence. Skilled in Python, SQL, Excel, Power BI, and Tableau for extracting actionable insights, building interactive dashboards, and supporting data-driven decision-making. Experienced in cleaning, analyzing, and visualizing business data through academic and personal projects. Passionate about solving real-world business problems using data and eager to contribute to a growth-oriented organization.

TECHNICAL SKILLS

Languages & Tools: Python (Pandas, NumPy, Matplotlib), SQL, Microsoft Excel (VLOOKUP, Pivot Tables, Power Query)

Data Visualization: Tableau, Power BI, Plotly, Seaborn

Databases: MySQL, PostgreSQL, Google Sheets

Machine Learning: Scikit-learn, Linear Regression, Classification, Clustering (basics)

Other: Git, Jupyter Notebook, Google Colab, MS Office Suite

PROJECTS

Sales Data Analysis | *Microsoft Excel* | *Pivot Tables* | *Charts*

- Analysed 12 months of sales data across multiple product categories to identify revenue trends and seasonal patterns.
- Built interactive Pivot Tables and dynamic charts to visualise month-on-month growth, helping stakeholders spot a 15% Q3 revenue dip.
- Automated repetitive reporting tasks using Excel macros, reducing manual effort by approximately 3 hours per week.
- Delivered a structured report with data-backed recommendations that informed the sales team's quarterly strategy.

Supermarket Performance Dashboard | *Power BI* | *SQL* | *Python*

- Designed and developed an end-to-end performance dashboard tracking KPIs including sales revenue, footfall, average basket size, and category-level profit margins.
- Cleaned and transformed raw transactional data using Python (Pandas) and SQL queries before loading into the dashboard.
- Created interactive filters by store location, product category, and time period, enabling drill-down analysis for management.
- Identified top-performing product categories and underperforming store branches, providing actionable insights to improve inventory planning.

AI Dashboard Builder (Personal Project) | *Python* | *Power BI* | *SQL* | *Generative AI*

- Designed the concept for an AI-powered dashboard generation platform that converts raw datasets into professional business dashboards automatically.
- Planned an automated workflow for data cleaning, KPI generation, chart selection, dashboard layout, and insight generation using AI.
- Proposed intelligent chart recommendations based on data types and business context, reducing manual dashboard creation time.
- Created an editable dashboard workflow where users can refine AI-generated KPIs, visualizations, and reports before publishing.

EDUCATION

Bachelor of Computer Applications (BCA)

Indira Gandhi National Open University (IGNOU) | New Delhi, India

July 2023 – Present

Master Diploma in Computer Engineering (MDCE)

Indian Institute of Computer Science, | New Delhi, India

July 2022 – July 2025

Senior Secondary (Class XII), CBSE

Govt. Co-Ed Senior Secondary School, | New Delhi, India

Completed: 2022

CERTIFICATIONS & COURSES

- 1st Position in SQL Practical -IICS
- 1st Position in Panda Practical -IICS
- 2nd position in Excel Practical -IICS
- 3rd Position in Python Quiz Competition -IICS
